

Dear Members of the City Council,

This letter comes with my support of the L on Broadway project proposed to be developed on the northwest corner of College Avenue and Broadway Street. As a frequent visitor/customer in the Downtown Carrollton area, I believe that additional housing in the area will be a benefit to all the businesses in the Historic Downtown District of the City of Carrollton.

The L on Broadway is a much better option than continuing to have undeveloped land in the heart of the Transit Center Zoning District. First, the proposed residences will have 400+ adults living there which will increase the number of patrons to these businesses. Additionally, by dramatically increasing the population in Downtown Carrollton, the city should be able to attract more business. Instead of having a vacant piece of property on a prime corner that can be seen from I-35, the L on Broadway will serve to attract more shoppers, patrons, and residents to Downtown Carrollton.

I ask that the L on Broadway receive your vote when it is brought in front of the City Council on July 7th. The proposed development is sorely needed and will provide benefits to visitors/customers like myself as well as the rest of your constituency.

Dear Members of the City Council,

This letter comes with my support of the L on Broadway project proposed to be developed on the northwest corner of College Avenue and Broadway Street. As the owner of a restaurant in the Downtown Carrollton area, I believe that additional housing in the area will not only be a benefit for my own business but to all the businesses in the Historic Downtown District of the City of Carrollton.

The L on Broadway is a much better option than continuing to have undeveloped land in the heart of the Transit Center Zoning District. First, the proposed residences will have 300+ adults living there which will increase the number of patrons close to my restaurant. Additionally, by dramatically increasing the population in Downtown Carrollton, we should be able to attract more business. Instead of having a vacant piece of property on a prime corner that can be seen from I-35, the L on Broadway will serve to attract more shoppers, patrons, and residents to Downtown Carrollton.

I ask that the L on Broadway receive your vote when it is brought in front of the City Council on July 7th. The proposed development is sorely needed and will provide benefits to business owners like myself as well as the rest of your constituency.

Dear Members of City Council,

I am writing to support the continued development in the Transit Center Zoning District near Downtown Carrollton. I believe the L on Broadway, which is a proposed luxury Class-A development located at the northwest corner of Broadway Street and College Avenue, would be a great addition to that area.

As a business owner in the Downtown Historic District, a new development would provide many new customers to my business and to the rest of Downtown Carrollton. Businesses like mine are more likely to succeed and grow when new development and new residents move into the area. The additional residents will increase the number of clients who will be utilizing the services of businesses like my own. Furthermore, I believe that the L on Broadway is a far superior alternative to leaving the land on the corner of College and Broadway undeveloped for the foreseeable future.

Momentum is moving in the right direction for Downtown Carrollton, and I hope that City Council recognizes the importance for continued development in the area. The L on Broadway would be a great addition to the Downtown Carrollton area, and I ask that the proposed development receives the vote of the City Council on July 7th.

Dear Members of City Council,

I am writing in support of a proposed mixed-use community planned for the northwest corner of Broadway Street and College Avenue. The community, called The L on Broadway, will be developed by Realty Capital Management and will be on the July 7th City Council Agenda. After discussing the development with members of the Realty Capital team, I believe The L on Broadway will greatly benefit Downtown Carrollton, and more specifically, the Urban Core of the Transit Center Zoning District.

The proposed plan has evolved due to the constructive feedback of City staff and commissioners of the Planning and Zoning Committee. I truly believe this project represents the needs of the community and the city. The L on Broadway fulfills the need to have a densely-populated community in the heart of Carrollton. The commercial space will contribute to the desirability of the area, and it will also entice citizens of Carrollton to shop and eat at local establishments instead of traveling to the surrounding suburban areas.

I am excited for another luxury, class-A development to come to the Historic Downtown District of Carrollton. The L on Broadway is a high-quality product that will satisfy a growing need for this area. I would like to register my support. I hope this project is approved by the City Council.

Best Regards,

I would like to extend my total support of The L on Broadway. As a business owner on the Historic Square, I love the idea of a new, updated project such a as this one being build in our "neighborhood". The project also has the potential to bring in a more affluent customer base due to the rent. The additional parking is another added plus. Future retail brings more people to the area also.

Please bring The L on Broadway to DT Carrollton. It's a win for everyone.

Regards,

John C Scott
