

APPLICANT'S NARRATIVE

To whom it may concern

I am trying to open indoor used car dealership, and I already leased a property located at 3333 Earhart Drive Suite #120 Carrollton, Texas 75006.

The property zoned light industrial and from my understanding when I went to the city, this property allowed to have indoor car sale and that will fit perfect for our need. Our main sale is over our website AutoDallas.com but we still have some cars to show in our showroom because that I have special permit.

I attached some photo and plans show the facility and where we will have the vehicle display in our showroom between 8 and 15 cars will be display inside and the rest of the sale will be through our partners over our website.

Please feel free to contact me if you have any question or concern.

Sincerely,

Valdineia Desouza
President
AutoDallas.com
