

APPLICANT'S NARRATIVE

Hours of operation: 7:00 AM - 6:00 PM

Days of operation: Mon-Sat

Details about business:

These days, childbirth is decreasing, pediatric hospitals are decreasing, and rather, animal hospital, dog cafes, dog grooming are thriving. Interest in pets has already penetrated deeply into our society, and many academies specializing in grooming are emerging.

And most people have one or two dogs, and they treat their dogs like family, walk them, groom them, and take great care of them.

So, our dog grooming business should be located close to the people of residence and be with them.

We have already completed academy a long time ago and have many years' experiences. We know how to treat dogs and how to groom professionally and hygienically.

I personally live with 2 dogs and love them, and I really enjoy grooming my dogs.

I want to open a grooming business and after waiting for 4 years because of Covid 19, have now finally found the place.

We will provide technology and services so that the puppies are stress- free and satisfied as much as possible in the style desired by the customers.

We will operate 100% by reservation, and we will prevent any trivial accidents as much as possible.

I want to communicate with and love my customers puppies, and interacting with them is my pleasure and goal.

If our dog grooming business goes well and prospers, we will regularly sponsor and communicate with the animal shelter.

Thank you for your interest in our business.
