#### **STAFF ANALYSIS**

#### PROPOSAL/BACKGROUND

- A. This is a request for a 20-foot tower extension section to be added to the existing 62–foot monopole to accommodate at least two (2) new wireless carriers. The extension will bring the height of the tower to approximately 82 feet.
- B. Freestanding cellular towers are allowed within the (LR-2) Local Retail District upon approval of a Special Use Permit.
- C. The existing Woodlake Village Shopping Center has parking lot light poles that are approximately 35 feet in height.

### **ORDINANCE REQUIREMENTS**

D. The Comprehensive Zoning Ordinance requires the approval of a Special Use Permit for an antenna support structure in all zoning districts.

# ADDITIONAL INFORMATION DEVELOPED AFTER THE FEBRUARY 5, 2015 MEETING

The applicant and staff have worked out the following landscaping package proposed for the SUP. Landscaping on the subject tract is difficult due to the odd shape of the tract and the number of existing parking spaces and driveways along Josey Lane.

The applicant will remove a minimum of three parking spaces along Josey Lane (as shown in the landscaping exhibit) and replace them with landscaping islands containing Crepe Myrtles, Mexican Feather Grass and decorative natural stone boulders. Once established, these species should be low-maintenance and drought tolerant.

These new islands will be visually consistent with the City-maintained landscape buffer further north in front of the CVS pharmacy.

The applicant will be responsible for replacing any plants that die, but the City can provide routine maintain for these new islands since City crews will already be nearby maintaining the buffer in front of the CVS pharmacy.

Finally, the applicant will "dress up" the other existing landscape islands in the shopping center by installing decomposed granite gravel to replace the dead/dying turf grass.

#### CONCLUSION

The site has had a 62-foot monopole since 2002. The proposal for the extension will allow for other carriers to co-locate. New landscaping will improve the look of the shopping center. Co-locating carriers on existing antenna monopoles (as opposed to erecting new monopoles) is encouraged by City policy, therefore the request seems appropriate.
