4. Discuss Rosemeade Rainforest Aquatics Complex Renovations Project.

City Engineer Cesar Molina stated the project has been ongoing for about 8 months and used photographs to show that the new facility site is starting to take shape. The lap pool would have 8 lanes which is what is needed for swim meets. He advised that the project is a little behind schedule due to the weather delays. a change order, and a misstep regarding the kiddie pool. He explained that the contractor has brought in a third crew to work strictly on the kiddie pool, are meeting with staff regularly and are committed to completing the project by June 4. The projected opening to the public is June 15, 2019 which is about 3 weeks later than the regular pool opening. Parks Director Scott Whitaker stated he was excited about the project, felt it would be great for the community and felt it would be a draw throughout Carrollton. He talked about the following challenges: hiring seasonal employees; impact to revenue projection because of the later opening; and communication to residents. He advised that during the time the pool is not open, the City of Farmers Branch will allow the residents to use their pool at their resident rate and staff is looking at alternatives to offer swimming lessons during the first couple weeks of June. General discussion was held regarding possible financial impacts and Council applauded the efforts made by staff to address the needs of the community.

She provided charts illustrating the reduction in use even with an increase in population.
