File #: 4130, **Version:** 1

CC MEETING: January 8, 2019

DATE: December 19, 2018

TO: Erin Rinehart, City Manager

FROM: Cesar J. Molina, Jr., P.E., Director of Engineering

Consider A **Resolution Authorizing The City Manager To Negotiate And Execute A Professional Services Contract With Teague, Nall & Perkins, Inc. For Engineering Design Services For The A.W. Perry NOTICE And Monetary Lane Street Reconstruction Projects** In An Amount Not To Exceed \$235,650.00.

BACKGROUND:

The reconstruction of the A.W. Perry Addition was authorized by City Council in 2017. This is a NOTICE project. The Monetary Lane reconstruction was approved by the voters in the 2018 bond referendum.

This contract will provide the construction plans for the complete reconstruction of the five streets in the A.W. Perry Addition, including Pear, Palm, Cotton, North Main and Jackson Streets. Monetary Lane is located in the Valwood Business Park.

The A.W. Perry project will include replacing approximately 2,330 linear feet of existing asphalt street pavement with new concrete streets and sidewalks, and new water and sewer lines at an estimated construction cost of \$1,600,000. The Monetary Lane project will replace 1,560 linear feet of street pavement and water lines at an estimated construction cost of \$1,200,000.

Consultant selection was performed using a request for qualifications (RFQ) method whereby engineering firms submitted a two part statement of qualifications which was evaluated by a four person committee. The top eight firms were selected for projects during the next two years. Teague, Nall and Perkins, Inc. was ranked number six in the selection process.

FINANCIAL IMPLICATIONS:

Teague, Nall and Perkins, Inc. has submitted a proposal to the City to perform the engineering design services for the project in an amount not to exceed \$235,650.00. Funding for A.W. Perry was approved in the FY 2019 Community Development Capital Budget and funding for Monetary Lane was approved in the FY 2019 Streets Capital Budget using GO Bonds.

IMPACT ON COMMUNITY SUSTAINABILITY:

This project will support the City Council's strategic objectives and vision of building a community that families and businesses want to call home by:

- Sustaining quality of life - Improvements in the subdivision should improve the appearance of the neighborhood which should encourage residents to provide better upkeep of their properties.

- Sustaining day-to-day operations - The replacement of substandard street pavement and utility lines should reduce the need for non-scheduled or emergency repairs.

STAFF RECOMMENDATION/ACTION DESIRED:

Staff recommends City Council approve a resolution authorizing the City Manager to enter into an engineering design services contract with Teague, Nall and Perkins for the preparation of engineering plans for the A.W. Perry Addition and Monetary Lane Street Reconstruction projects in an amount not to exceed \$235,650.00.
